## LOCAL SUPPORT FOR GREATER WELLINGTON FARMERS

BY FARMERS. FOR FARMERS

JUNE 2014

This one-page list of resources highlights environmental advice, grants and other support available free to farmers, primarily through your Regional Council. Accessing this information can help you implement environmental practices on your farm.

### Aerial Photos/Maps

Greater Wellington Regional Council will supply aerial photos to farmers who request them and have an operative farm plan for either erosion control or water quality improvement. At this stage they are free.

Talk to your local Land Management Officer for more information.

### Grants

The Greater Wellington Regional Council has grants available through their farm plan programme for erosion control in hill country areas and for water quality improvement in intensively farmed areas in specific catchments.

For further information contact:
